<p>PSHCE</p> 	<p>Pride Month is currently celebrated each year in the month of June to honour the 1969 Stonewall Uprising in Manhattan. This was a series of events between police and LGBTQ+ protesters that stretched over six days. It was not the first time police raided a gay bar, and it was not the first time LGBTQ+ people fought back, but the events that would unfold over the next six days would fundamentally change the nature of LGBTQ+ activism in the United States. There are lots of ways you can show support for the LGBTQ community- make a rainbow collage, share a supportive post on social media or support our fundraising in school by buying a rainbow cookie in the week starting the 21st of June.</p>
